SCHILLER
The Art of Diagnostics

CARDIOVIT CS-104

Everything you need in
one system:

- Wireless ECG acquisition
- Optional ultrasound spirometry with SpiroScout SP plus
- Integrated workstation for data review

ALL POSSIBILITIES IN A SINGLE SYSTEM

- Resting ECG with the SCHILLER ECG analysis program ETM as well as ETM Sport, the automatic interpretation for athletes
- Resting rhythm recording up to 20 minutes, with optional arrhythmia detection
- Exercise ECG with optional arrhythmia detection
- Vector ECG (optional)
- Spirometry, based on the ultrasound technology of the SpiroScout SP plus (optional)

Ultrasound spirometer
SpiroScout SP plus

WORKSTATION FOR DATA REVIEW

The CARDIOVIT CS-104 provides extensive review features for both data locally acquired and recordings from all SCHILLER devices connected to the SCHILLER Server. Bi-directional connectivity (including worklist and PDQ) to EMR, HIS and PACS systems.

WIRELESS ECG

The wireless module MS-12 blue greatly simplifies ECG acquisition, allowing the user to freely operate in any environment and minimizing motion artefacts. Whether laying on the bed or running on the treadmill, the patient has the greatest possibility to move and will hardly notice this small and light device (115 g).

SWISS QUALITY - READY-TO-USE

With the CARDIOVIT CS-104, SCHILLER offers a complete ECG system, ready for use in practices, clinics and hospitals.

The unit includes a PC, a monitor, a trolley and a wireless (MS-12 blue) or wired (MS-12 USB) acquisition module. Everything is pre-installed and tested by SCHILLER, ready to be used in the clinical practice.

Intuitive and customizable user interface

Soft handle positioned at an adjustable height

Small but powerful wireless ECG acquisition module with on-screen signal view and hook-up advisor

Transparent bin to store and transport medical items

Easy-glide wheels to smoothly maneuver the trolley
